Full Job Description

About Us

Our Federally Qualified Health Center (FQHC) is committed to providing high-quality, accessible, and comprehensive healthcare services to a diverse patient population. We prioritize holistic, patient-centered care and a collaborative approach across our multidisciplinary team to ensure the best possible outcomes for our community.

Position Summary

We are seeking a compassionate and dedicated Psychiatric Nurse Practitioner (PNP) to join our team. This role is critical in delivering comprehensive mental health services, including assessment, diagnosis, treatment planning, and ongoing management of psychiatric and co-occurring disorders. The ideal candidate brings expertise in psychiatric care, a commitment to patient-centered approaches, and the ability to collaborate effectively within a multidisciplinary team.

Key Responsibilities

- **Patient Care:** Conduct comprehensive psychiatric evaluations, develop treatment plans, and provide ongoing management for patients with psychiatric disorders, substance use disorders, and co-occurring mental health conditions.
- **Medication Management:** Prescribe and manage psychotropic medications, monitor effectiveness and side effects, and adjust treatment as needed.
- **Therapeutic Interventions:** Implement evidence-based therapeutic techniques for individual, family, and group therapy sessions.
- **Collaboration:** Partner with primary care providers, social workers, and other mental health professionals to ensure coordinated, integrated care.
- **Education and Advocacy:** Educate patients and families about mental health conditions and treatment options; advocate for patients within the healthcare system and community.
- **Compliance and Documentation:** Maintain accurate and confidential patient records in compliance with federal, state, and FQHC regulations and standards.

Qualifications

- Master's or Doctoral degree in Nursing with a specialization in Psychiatry.
- Valid state license as a Psychiatric Nurse Practitioner and board certification.
- Experience in psychiatric care, including assessment, intervention, and medication management.
- Strong interpersonal and communication skills, with the ability to work effectively with a diverse patient population.
- Commitment to the FQHC's mission of providing accessible, comprehensive healthcare services.
